Re: Reminder: Switch of Social Security numbers to UGA IDs in major systems

As a reminder, the conversion of approximately 50 million Social Security number records to UGA IDs in several major University data systems will take place **this Saturday, December 21, from 9 a.m. to 9 p.m.**

The University's central financial, human resources, payroll and administrative systems will have Social Security numbers in their systems converted to UGA IDs.

In addition, any University data system integrated with the IMS or DB2 databases will not be available this Saturday, from 9 a.m. to 9 p.m.

After the conversion, Social Security numbers will not be available to use or access in the University's central financial, human resources, payroll and administrative systems, unless a department has a business reason for doing so. Instead of using Social Security numbers in those systems, an alternative identifier (such as a UGA ID, vendor number or other ID number) will be used.

Enterprise Information Technology Services (EITS) recently hosted two open forums about the conversion. Archived recordings of the open forums are available at http://tinyurl.com/lvr3b9e and http://tinyurl.com/kwwrhso
